- \* Material: 100% Paper Pulp
- \* Colour: Natural Brown
- \* Dimensions: 245 x 110 x 120 mm
- \* Weight: 60 g (+/- 5g)
- \* Qty in Pack: 100 pcs
- \* Pack Dimension: 800 x 250 x 989 mm
- \* Qty on Pallet : 13 pack
- \* Qty in Container for contact me.

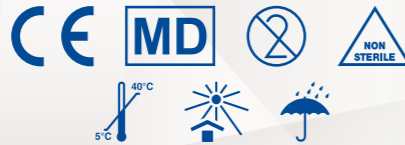

### Regulatory Compliance

- \* Compliant with: MDR 2017/745
- \* Disposability: By Maceration
- \* ISO 9001:2008 ISO 13485:2016
- \* CE Medical Device Directive
- \* PAS 29:1999 certificate is available.

### Fluid Retention Testing

- \* Guaranteed to hold fluid for 4 Hours
- \* Resistance Temperature: 35 C (+/- 3)

Due to the nature of the manufacturing process the products may vary in appearance. This will not affect the performance of the product.

The Zero Waste approach is a waste management philosophy that aims to prevent waste, promote more efficient use of resources, review the causes of waste generation to prevent or minimize it, and ensure separate collection and recycling of waste at its source.

The benefits of adopting the Zero Waste approach include increased efficiency, improved performance due to a clean environment, reduced costs by preventing waste, decreased environmental risks, fostering environmental awareness within the organization leading to employees having a "conscious consumer" attitude, and enhancing the institution's reputation as an "Environmentally Friendly" entity in national and international markets.
